Sep 2023

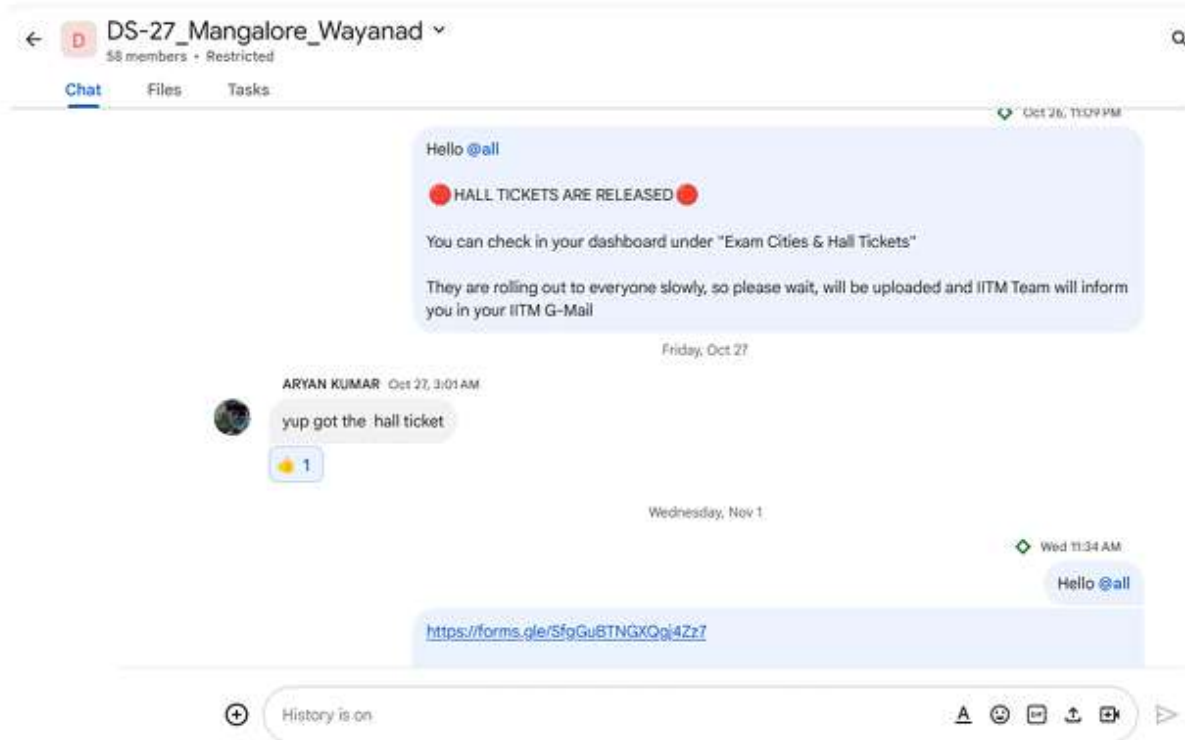

- As a 1st time GL, it was a proud moment for me being contact with the UHC's, Admins, etc...
- I did ensure, as a GL, to keep an eye on the daily updates and even did inform to our Groupmates.
- Few Screenshots attached below...

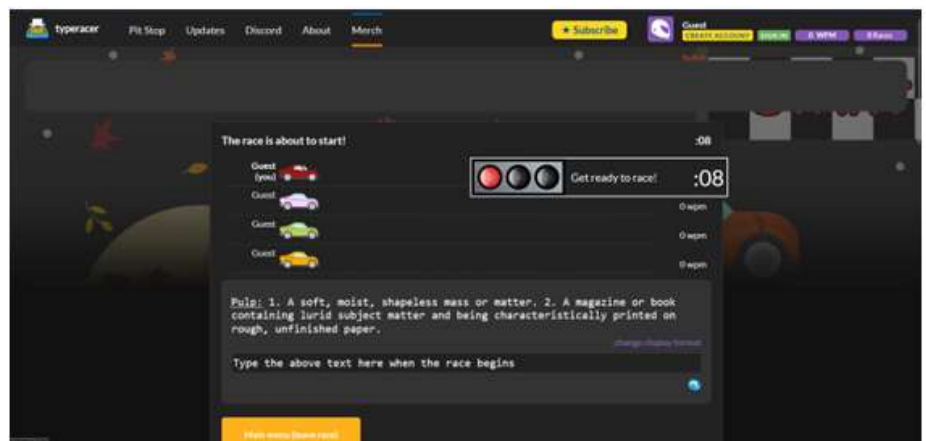

- Conducted a G-Meet and few people participated. It was a successful meet, connecting to new people.

Oct 2023

- I ensured to continue updating my groupmates about any of the info to be passed from IITM Team. Few Screenshots attached below...

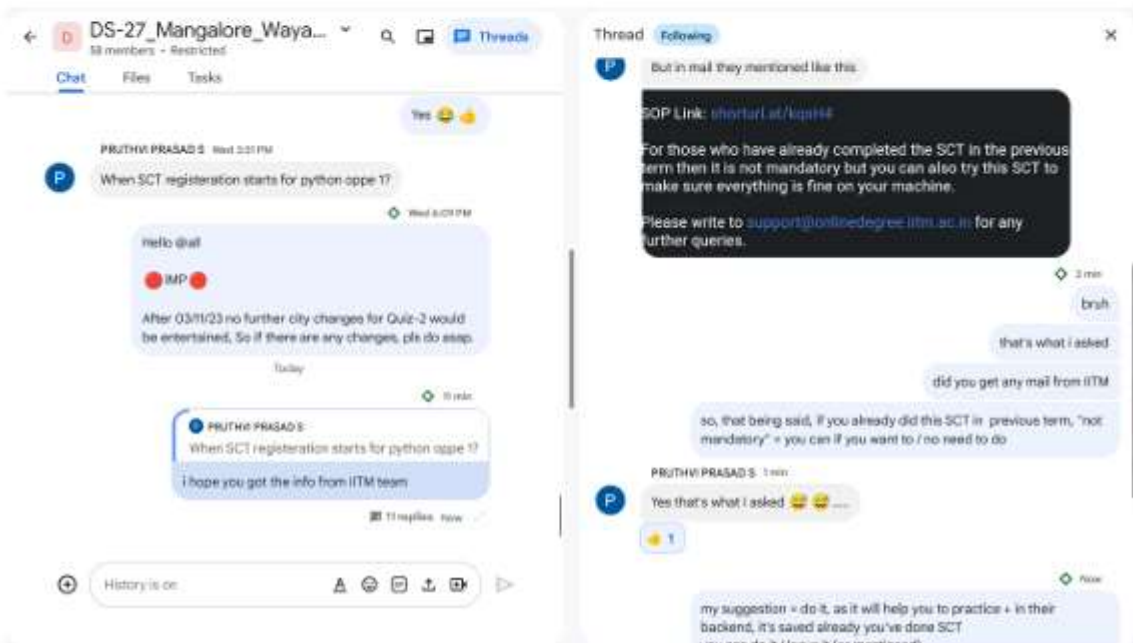

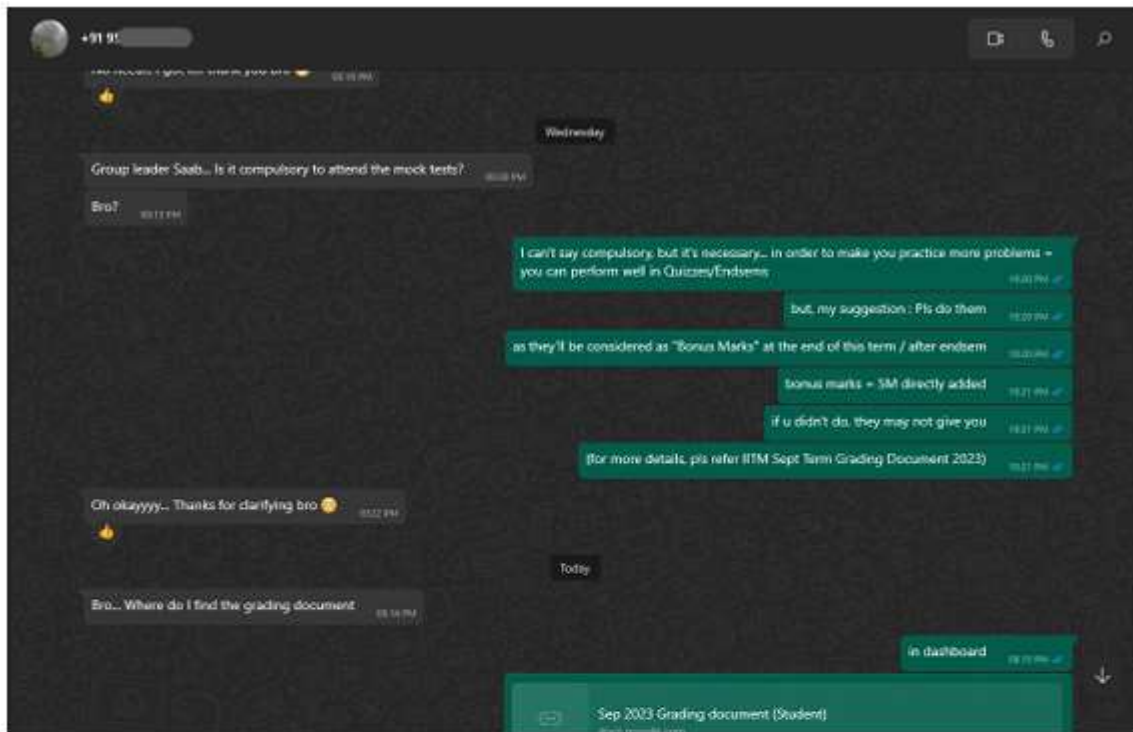

- I tried interacting with my Groupmates, now, there's more response since we held a G-Meet regarding a general Query Session. Also, so as not to bore people just speaking, we had a game activity (started with something simple). It was fun – “TypeRacer”. I hope the upcoming days will be great. Many sessions and activities will be conducted.

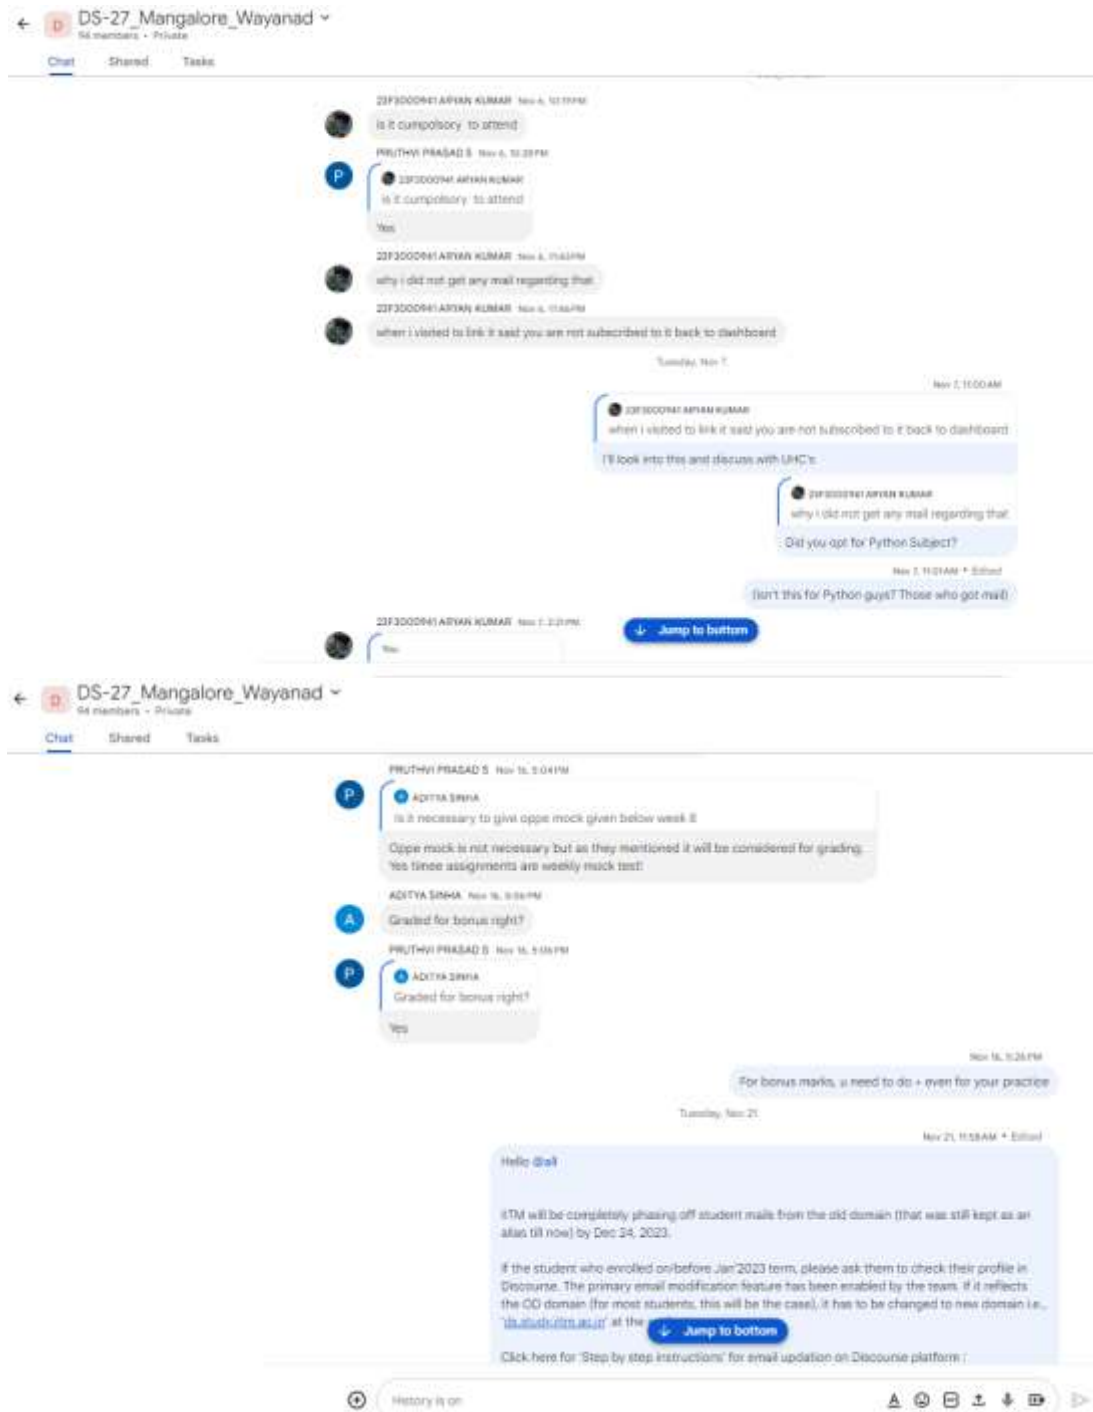

- Sorting out IITM Mail Queries, Personal Queries, Also Subject regarding questions.

We had a GMeet, but as it's the 1st GMeet, hoped many will join but less participation was seen. I hope there will be increase in participants later. (screenshots)

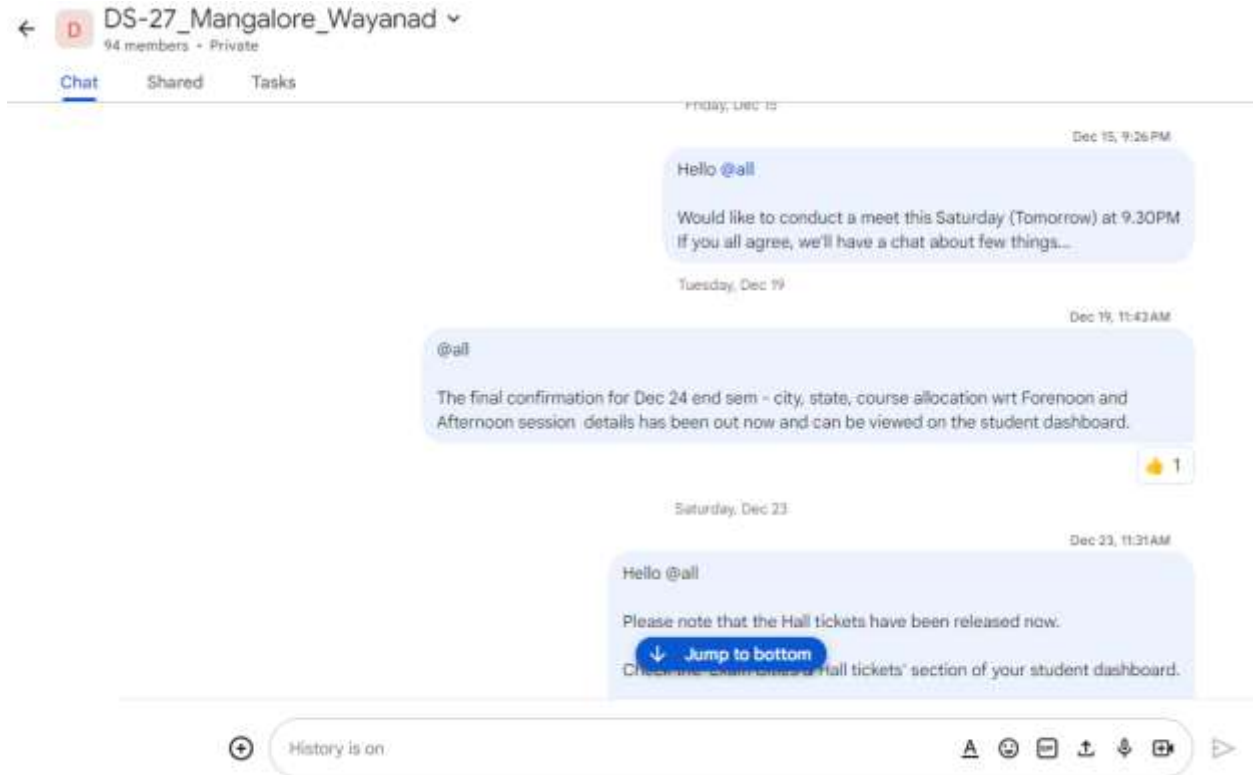

Nov 2023

It was a month full of queries and doubts. Screenshots are attached below:
This month was something where I couldn't do any other extra activities due to my tight schedule in my offline degree exams and assignments. So, however, I've managed to respond in time regarding any query (personal or common)

Dec 2023

- This month, not much active and also didn't disturb others as I was having my finals in my offline degree, as well as end term of IITM last week of December.
- Many didn't have any queries and were busy preparing and doing their work.

Jan 2024

- January month was also same like in December month. Just kept them updated with news from IITM.

@all

Are you a part of the Wayanad house common group? if not, do join in as this will serve as an effective & verified medium for query redressal & communication among our fellow house students and the council.

First submit the verification form at <https://forms.gle/v6nZBWbWphJqb6L6> and then send a join request with the submitted number at <https://what.whatsapp.com/CkPCC2UphscQ5kVYSMY3mR>

This is the final opportunity to join the grp, as there won't be further verification cycles/ user addition for students before Jan'24 term.

Feb 2024

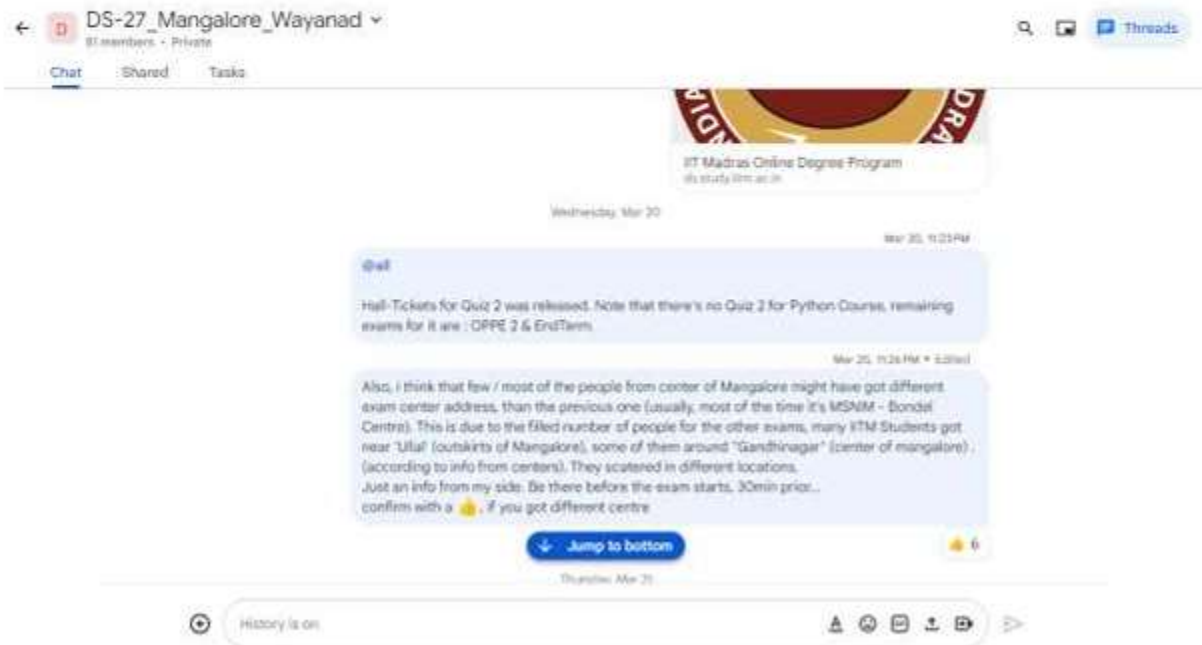

The MEET was successful, delivering the important things regarding “Paradox” especially, and few other queries regarding academics, etc...

New members, new groupmates, co-operated well in giving quick responses whenever there's any request from my side, and got many queries personally too! Hope it'll be as great as every day, meeting my teammates at the Centre, having some shared stories, etc... mainly, participating together in PARADOX.

Mar 2024

Personal information regarding our exam centres was also delivered to avoid confusions by contacting the exam centre invigilator and administrator.

This April Month is the most challenging for me, about the Paradox initiatives we had and, some amount of backend work among out house council members, etc... A huge appreciation for our web-admin as well as our secretary of our house, who coordinated precisely and timely by knowing each of us our works and helping others.

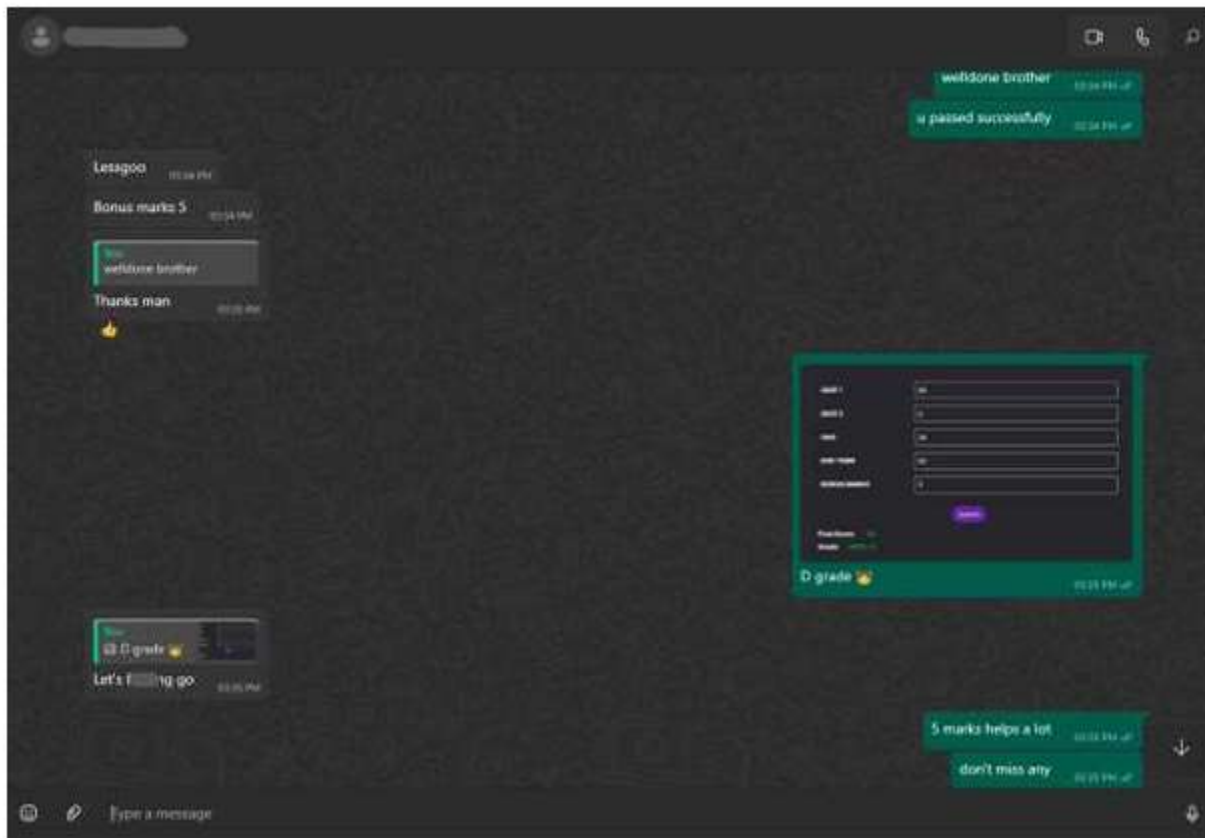

The meet in-centre was successful, discussing few things regarding “Paradox” especially, and few other queries regarding academics, classes, further plans in next term and Paradox Day meet-up.

Apr 2024

In This month, it's just work from my side to compile the data and put it into our database regarding the Paradox things and to track how many from our house are actually attending Paradox 24'.

Rest all assured, It was a great time meeting our housemates in exam center and shared info, etc...

And yeah, helped regarding academics too...

May 2024

This MAY month wasn't active at all, the group's dead except keeping the messages regarding Paradox Event things.

We did meet even at Paradox but couldn't catch up for a long time due to the events to be attended as well as the timings of events during Paradox.

However, we stayed connecting through WhatsApp than being more active in G-Space.

Jun 2024

June month was just about full of notifications regarding announcements, etc... and some important updates regarding the start of course (new term).

No suitable screenshots available, kindly excuse (as it's the routine one's as mentioned in previous screenshots)

Jul 2024

Recently, New batch of students joined and was happy as again the group has revived successfully.

However, more interaction will be held in upcoming few days. A G-Meet also scheduled but 3-4 people have joined one-by-one (forgot to take screenshots of previous one's). That's all in my Tenure... It's a great journey, Thank you!
