GL REPORT

BY ANIRBAN MANDAL

Name- Anirban Mandal

Roll- 23f2004053

GL of group 139 (Allahabad)

Date of Joining: 14th February

Summary

I have followed all the responsibilities of GI for my group 139.
Like adding verified students, clearing their doubts and also forwarding useful information

Along with these I have made sure most of my group members register for paradox and also served some time as part of the OVS team.

And recently in the current verification cycle I have worked as volunteer to add students in the common house group in whatsapp.

February and March

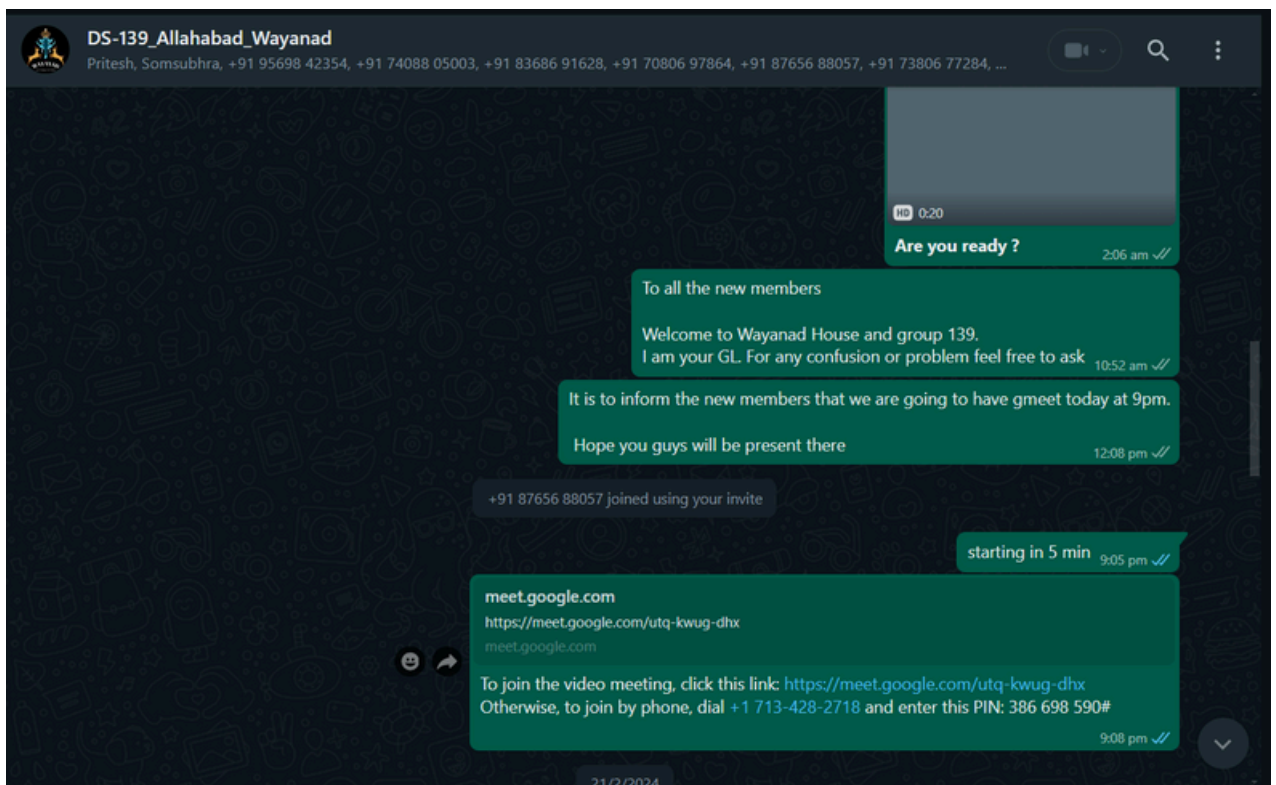

A. Whatsapp verified students

I have added around 6 people in the whatsapp group who were verified.

B. Regarding Paradox

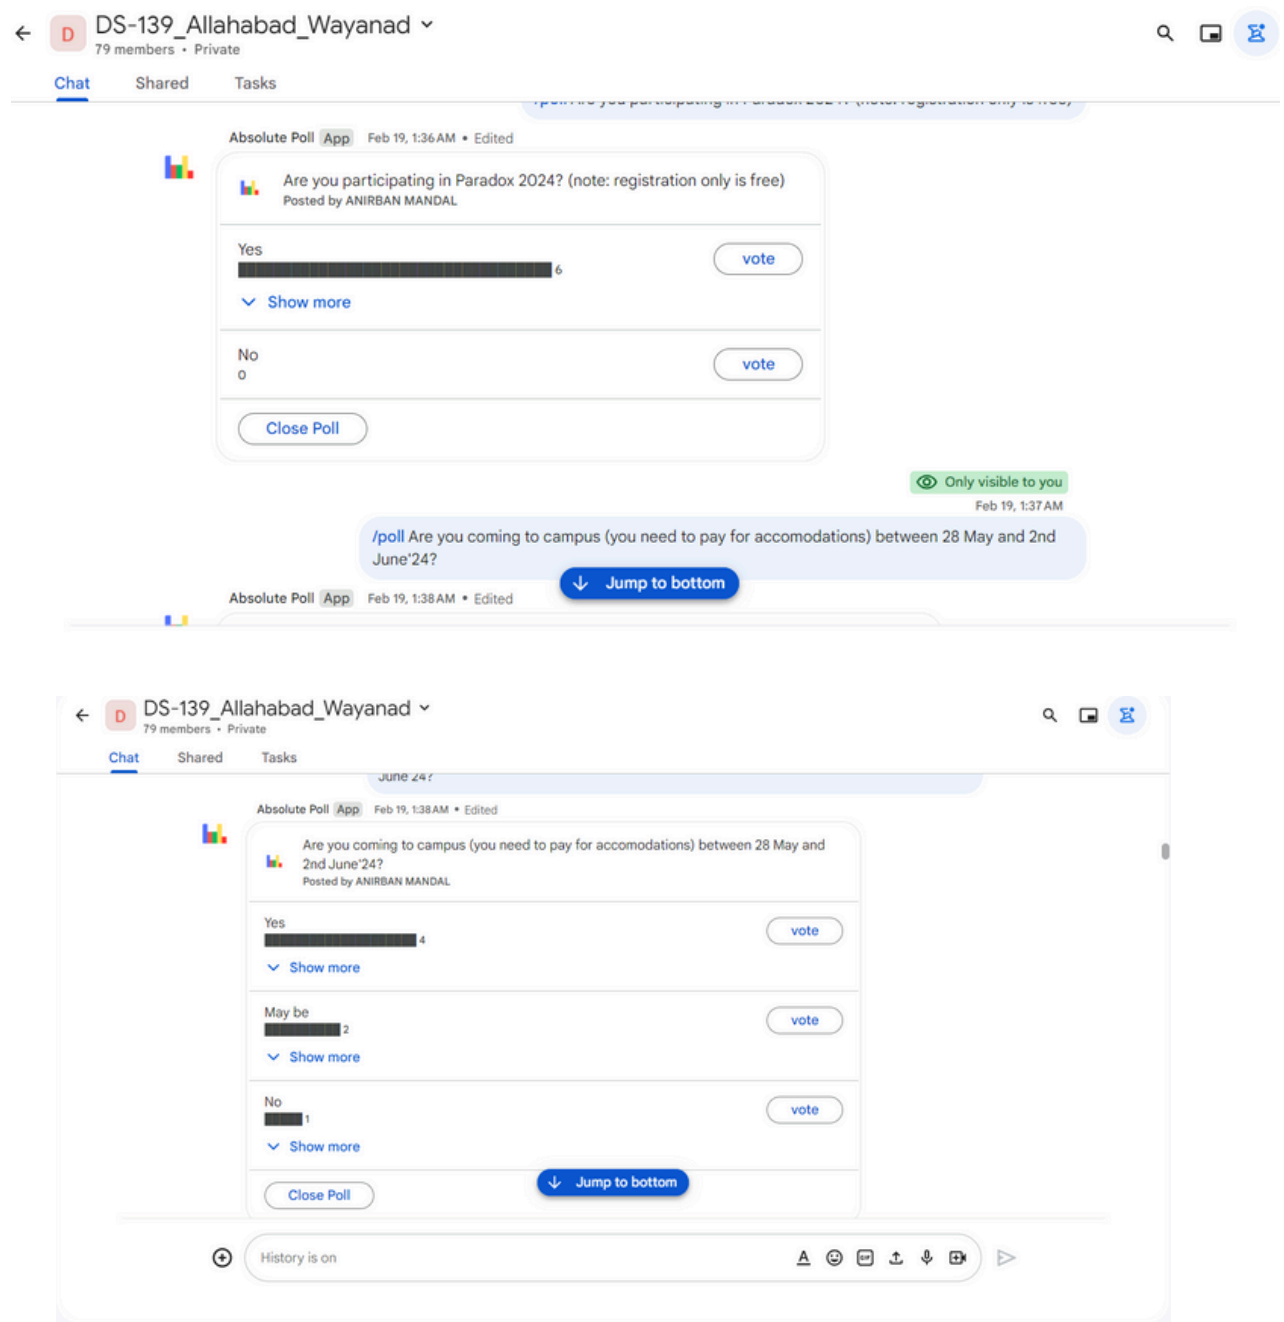

1. Group 139 (My group)

- i. Hosted a Gmeet on 20th feb at around 9:08 pm about paradox and our house reward system. But only one student has joined the meet.

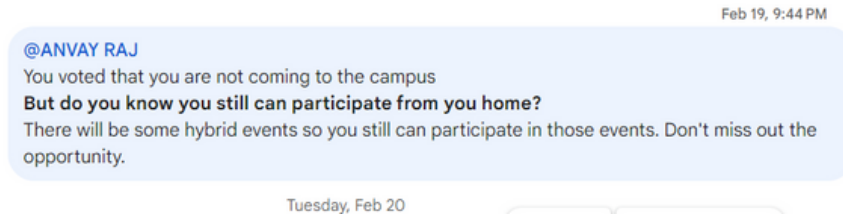

Along with these sent many things videos and links of last year paradox to increase the participation.

ii. I had initially tried to get information by hosting polls in the GSpace.

iii. As the polls were not that effective I have personally reached out to 16 people of my group through whatsapp and recorded their response. Moreover, I have messaged to more than 40 people on Gspace who are not verified to get their response but none of them responded.

- iv. For people who had voted for “No” tried making sure that they know about the online events at paradox and they still can participating even without coming to the campus.

2. 144 (Assigned along with Goutham)_

From the verified students I have tried to reach around 14 people out of which around 8 have responded.

3. 270 (Reassigned)_

Upon reassignment there were 17 whatsapp verified students. Out of 17 verified students I have managed to get everyone's response by personally messaging them over whatsapp. In some cases I had to ping them couple of times but finally got the response.

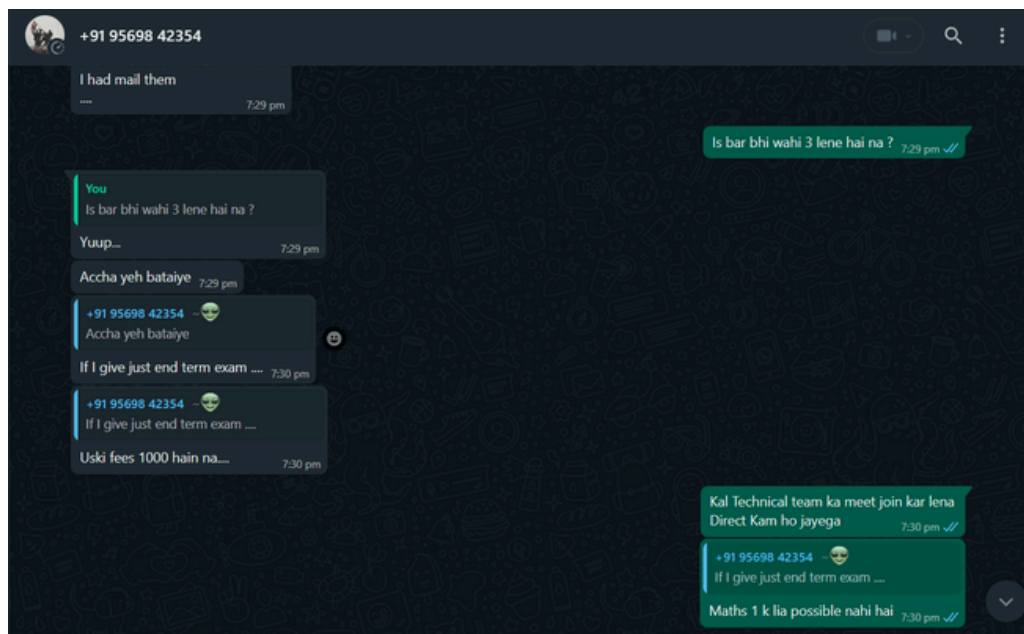

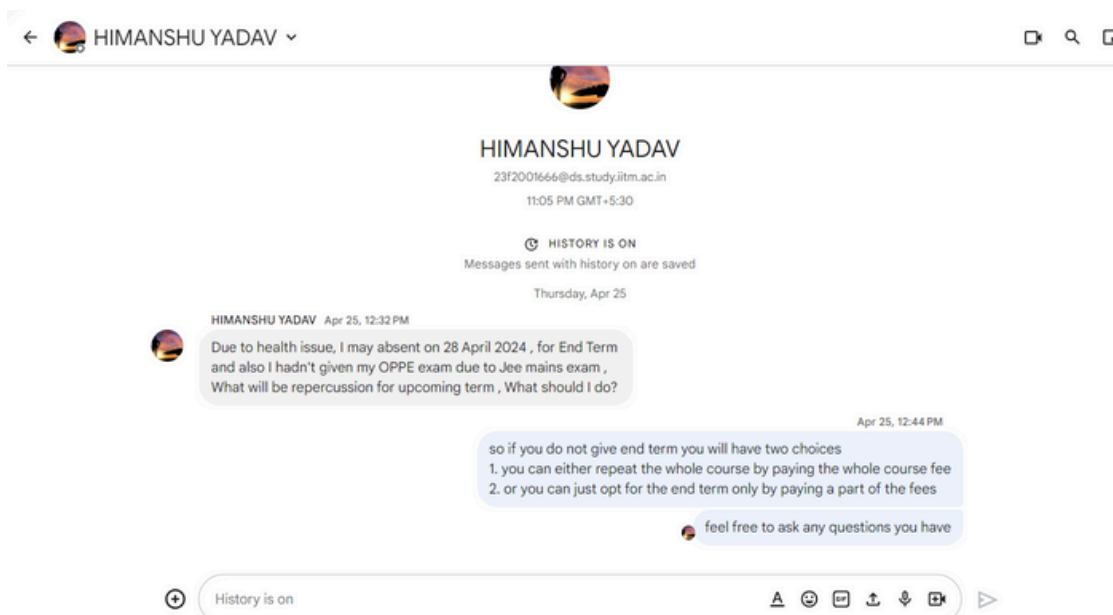

4. Except these

I have also helped some other GLs in reaching out to students like Adarsh Kumar (GL-90).

April and May

A. Clearing doubts of group members

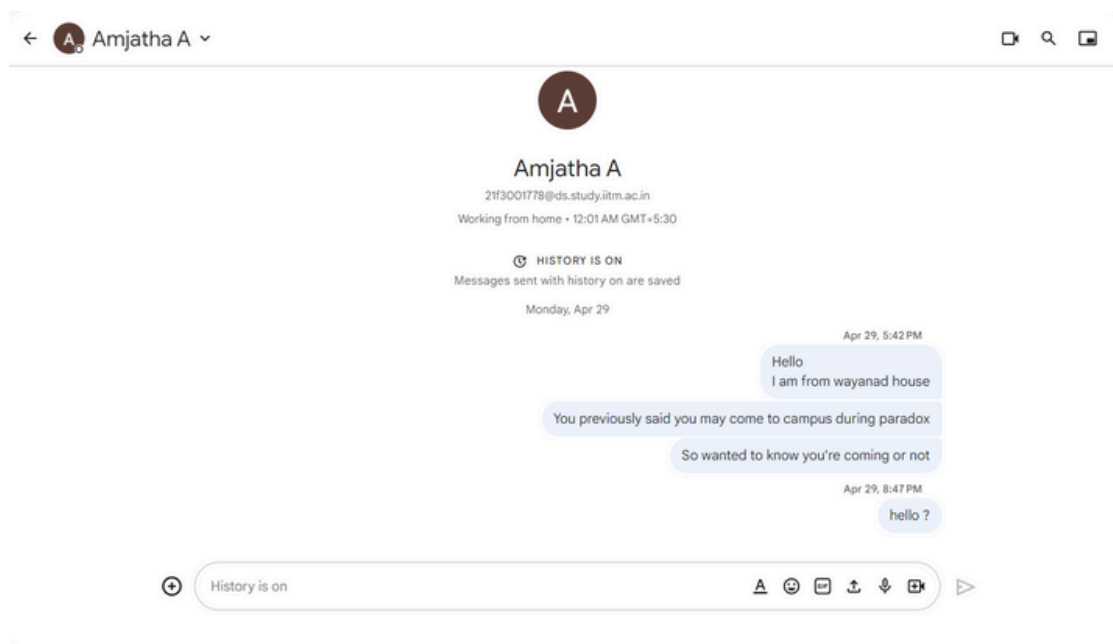

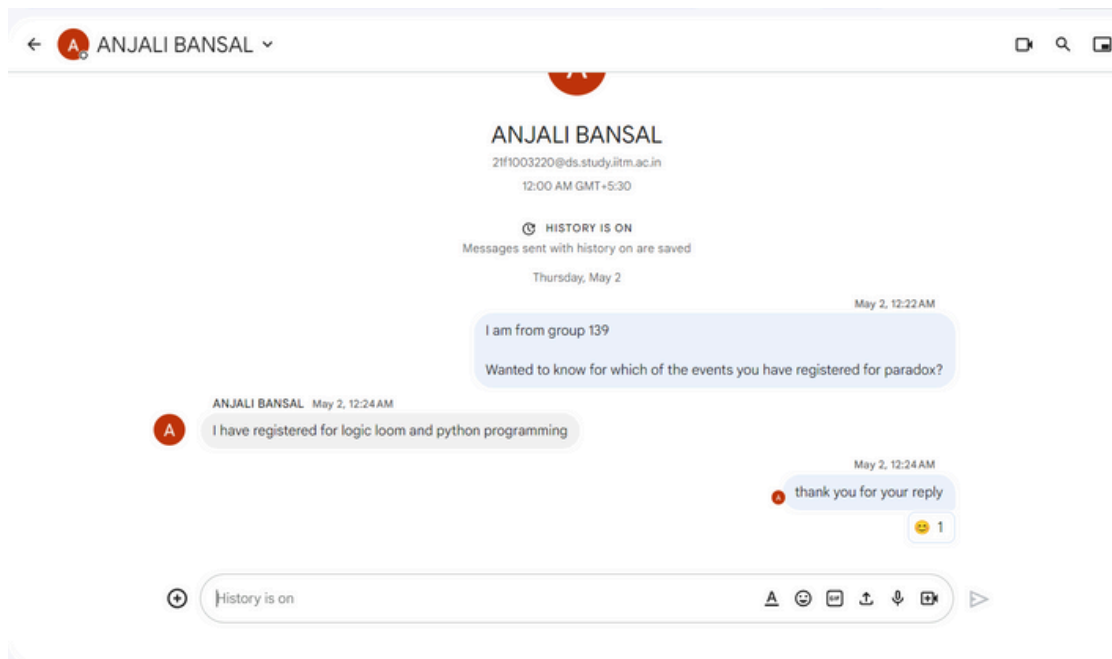

I have cleared doubt of some of my group members regarding endterm and subject selection.

B. Paradox Final Survey

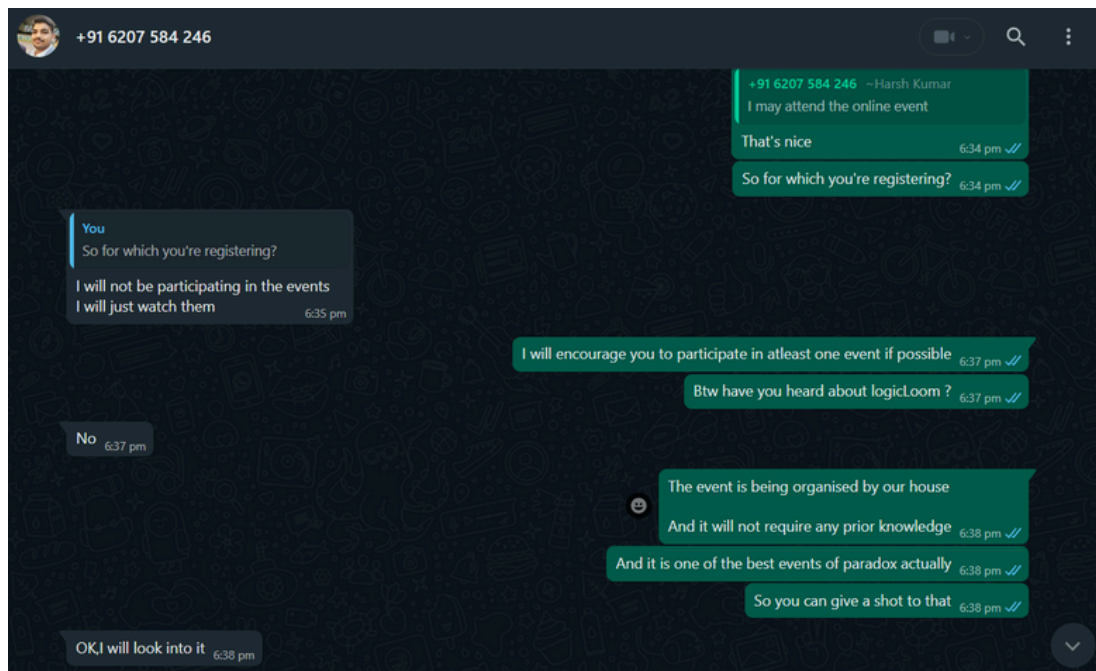

1. Group 139 (My_group)_

I have at first confirmed if they are really coming or not and then recorded their responses.

2. Group 144 and another group

I have the same for this group also. Although a lot of the students were not responding.

Caption: This person was not resgistering for any of the events at first but later I successfully convinced to register. And the good part he was one of the winners

2. OVS Team Contribution

I have worked as a volunteer for the Wayanad Fest Assistance group and also the gspace regarding the same. Also helped updated the registered event details of many other students of other groups through the ovs account on Impact.

Along with that assisted many students about events according to their interests and skill set.

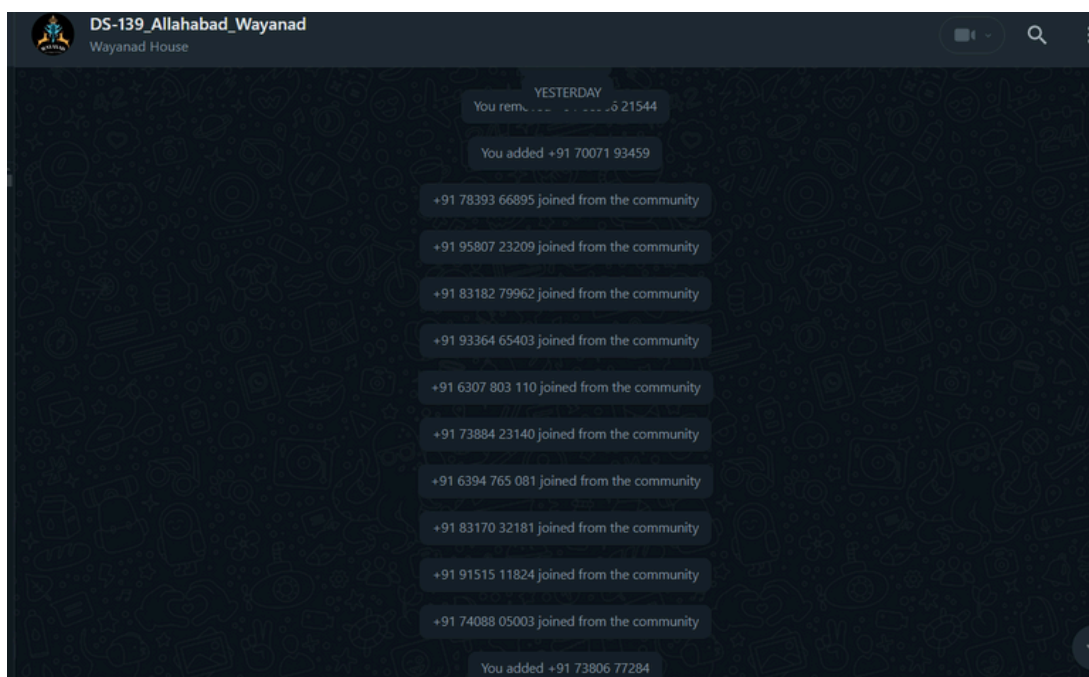

B. Paradox participation by Myself

I have participated in the Badminton tournament in paradox being part of the Wayanad house team and we secured 2nd position.

June - Now

A. Addition of new students to my group

I have added around 15 new people to the gspace and also added the verified students to the whatsapp group.

A. Addition of new students common group and group 54

I have helped in adding the verified students in group 54 and common group
